My experience at Dr Todd Adams office can only be described as Superior Everyone at the office from the front office Sue and Debbie are just the best most efficient and pleasant people They put up with difficult scheduling for me and keep all of the accounting straight. I have had a lot of appointments. Dr. Adams assistant Brittany is very efficient and thorough and deserves a special shout-out for all of the detail work that I required Dr. Adams himself is most thorough accurate and careful. He provided new crowns for all of my teeth as well as temporary crowns While I was traveling. It was not a demanding task that required very careful planning. In the process he also changed my bite to remedy a clicking and locking in my jaw. Brittany also was very patient in Racine menteng the temporary crowns. All in all dr. Adams and his staff exceeded my expectations at all levels. I am very thankful for the work and very happy with my upgraded smile.

Todd Adams is a excellent dentist and he has a great team working with him. I've been going to the same dentist office for 32 years, ever since I moved to California. Dr. Williams was my dentist for many years and when he retired, Dr. Adams took the mantle. I feel like I get good advice. He provides options for me and recommends the right course of action. I'm very happy and hope continue going to Dr. Adams for many years to come.

Dr. Adams' dental practice's updating has been mind-boggling. He can even make crowns there with what I believe is a 3-D printer. Staff is not only courteous but extremely friendly. Plus, they are exceptionally professional and can answer your questions. They will also sit down with you and explain what something costs. They are excellent with dental insurance. That has been very helpful for my wife and I, to plan my care around our savings for the dental work. Furthermore, I have all the confidence in Dr. Todd. As a person who has not taken good care of his teeth, I have had multiple problems occur that if not caught early by Dr. Todd's team, would have cost so much more. Dr. Todd so impressed me that I recommended she change her dentist and become a patient of Dr. Todd, which she is more than happy that she did. Staff is always punctual. Appointments are almost always timed to virtually the minute, so if you are working that day, you can be assured that the office can more or less give you an accurate idea of when you will be done, although that may change if issues are found. For a guy who literally grew up in the middle of a redwood forest in the small valley and community of Freshwater, when I left Humboldt County, after having lived there for 40 years, I never thought I would find such a welcoming dental practice with such a small, home-town feel to it, while having the most amazing up-to-date technology.

Whether you are from a rural area like I am, or from a large metro area as Silicon Valley, you will find that Dr. Adams' dental practice is like a walk back in time to an era when customer service meant something. Additionally, Dr. Adams has made significant investments in his practice, whether it's from a computerized crown-maker, cameras that take precise photos of your teeth to superbly and professionally trained staff. I had one dentist for nearly 40 years in the rural area where I grew up (where there were more cows than people). When I moved to Silicon Valley, I regretted losing that dentist. However, after numerous visits over nearly 10 years to Dr. Adams' practice, which he purchased from a prior owner who was also excellent, I have found an even more advanced dental practice. Dr. Adams and his staff members are professional, knowledgeable and courteous. It's too bad there are only five stars for this review, because Dr. Adams' practice would rate a 10 out of 10, with 10 being the highest. I even recommended to my wife that she go to Dr. Adams. She took my advice and is now one of his patients.

I have been going to this office for several years (when it was under the previous dentist) and I have always found the staff friendly, communicative, and professional. I do miss some of the staff that have moved on, but still appreciate the environment; the staff treat each other calmly, respectfully, and professionally.

Our dental care has been provided by Dr. Adams and his staff ever since he took over the practice from Dr. Williams (whom we were with for many years.) My most recent visit was for routine periodic cleaning. Our long-time dental hygienist retired recently so this was my first encounter with a hygienist new to the office by the name of Ali (short for Alice). I immediately felt like I was in good hands and it is clear to me that Ali is an excellent addition to the staff. Dr. Adams and his staff continue to provide the best dental care possible.

Needed a deep cleaning and the office got me in with Cherish who replaced Lynnae who retired after being my Hygienist for many years. Cherish was friendly and pleasant and professional, as you would expect at Dr. Adams office. She has a soft touch and talked me through the entire procedure. I let her know I didn't want to feel any pain and she got me really numb with just numbing gels. .not injections! I didn't feel a thing. .though my mouth felt pretty numb. She used a sonic cleaner which uses some kind of vibration and water which I wasn't used to with Lynnae, but new technology is another thing I've become used to at Dr. Adams office. .it was great. I'll miss Lynne and wish her well in retirement. .but I've found my new hygienist!

I was scheduled for a filling removal and replacement at 2:30. I arrived early at 2:15 and was seen immediately. I was told it would take two hours, but in actuality the procedure only took thirty five minutes. I've been with this dental group for sixteen years, first with Dr. Williams, and now with Dr. Adams. Dr. Adams has really upped the office with new technology that makes everything a breeze, and quick too. His staff is excellent, and he's a class act as well. During my routine cleanings, I'm never in pain anymore, and my gums never bleed. His gals have a very soft touch. I have no complaints, only the highest of praises, and would highly recommend Dr. Adams dental office to everyone.

I had one of the best cleanings of my life! I bought a new toothbrush here thinking that it might be just them trying to make money at first, but I LOVE IT. Dr. Adams was incredibly knowledgeable and informative. He seemed genuinely interested in me as a person before a patient and wanted to help me make informed medical choices. I'm very glad I chose to come to Dr. Adams.

The office, assistants, and doctor are all very courteous, helpful, and understanding. I'm a big chicken and they took their time to help me through a difficult procedure. The doctor shared everything he was doing with me and answered all my questions and presented treatment options to better help myself. I LOVE this office!

Dr. Adams is careful and thorough and complete. His personal phone call the day following surgery to follow up and be certain that everything was going okay is very impressive! It is very rare to find someone as professional in this day that does that kind of follow-up. It has been nearly 20 years since my last dental visit. I had a bad experience back then that made me a little reluctant to go back. Recently I was convinced by my wife to set a good example for my kids by getting a checkup. I was a little nervous at first but Todd Adams made me feel very comfortable and assured me that I would be well take care of during a deep cleaning. The hygienist on staff (Leanne) was very nice

and professional. Believe it or not, she actually made me look to my next visit! The ladies up front make you feel comfortable and welcome as if they have known you for years. I have future work scheduled and feel confident that I will be taken care of. I have been cured of my dental phobia and have the whole staff to thank! I will definitely recommend Dr Adams and his staff to all my friends and family for their dental needs.

Definitely recommend Dr Adams, an absolutely excellent Dentist. In my case I'd actually broken a tooth on a popcorn kernel while watching the Superbowl :-(and was in quite a lot of pain and could eat or drink anything. I called them next morning, explained my dilemma and they fit me into their schedule. I basically got a crown on the broken tooth and it worked and looked perfect, I can hardly tell the difference between the old tooth and the new Crown. They followed up 2 days later to ensure all was well with the new tooth! I really appreciated the follow-up to ensure all was well, that's truly excellent service. I highly recommend Todd S Adams DDS, thank you! Tom.

Todd and crew were ready to go at the opening bell ... 8 AM! Don't have much experience with a large number of dental offices, but I can't imagine any group more professional, friendly and adorned with the latest/greatest technology. Took a little longer than expected, 2 hours, but the procedure turned out to be much more involved than anticipated. No wasted time, just a lot of detail work. Tooth repaired and crowned and out the door ... no muss, no fuss, no pain (or at least very little :-)!

Outstanding work as usual. The crown Dr. Adams installed fits perfect and feels great!. My hygienist has inspected Dr. Adams' previous work on a number of occasions and commented on it being the best she has ever seen. The fact that crowns are made in his office during the visit is another high point that should not be overlooked, as it saves another visit back to the office. .

I already recommended Todd to my friends, they accepted and are happy with his work. In short, Todd is great dentist with great personnel. I have never experienced such professional approach. My teeth and gum were, in detail, measured, photographed, X-Rayed. Then they present all the measurement and suggest what could be done to make teeth better.

From the beginning of scheduling and appointment, to the follow through of the work to be done, everyone is kind, caring, and helpful! The work done meets all expectations! I do appreciate the "keep in mind of the possibilities of residual pain" and what to do. At this office it's like going to a medical doctor-perfect! Guess I've had a great deal of good measure with both!

Dr Adams went above and beyond the call of duty. One of the crowns I got from him got attached to a tooth that moved (the roots of the tooth moved), causing a gap between 2 teeth some time after the crown was installed. He nicely replaced it with another crown designed to help my tooth not move anymore and to prevent another gap from happening again. Couldn't have asked for more.

Everyone in the office was warm welcoming and informative from start to finish. I had one crown that needed re cementing and then discovered with a scanning machine that another tooth needed a crown since it showed cracking . I feel since he was able to catch this tooth early enough before it cracking too deep he saved it from further damage or complete loss. Dr. Adams and Debbie fit me in the very next day so he could do both at the same visit. Dental assistant Fay is a sweetheart and kept me informed and comfortable throughout the whole procedure. Thank you all for making my visit most comfortable

Dr. Todd did what I thought was impossible! He replaced my hometown dentist that I had since I was in my late teens in a town far north of the Bay area, in terms of my satisfaction with friendly and professional service, etc. Courteous and top-notch professional staff from the front office to the hygienists to Dr. Todd himself. I totally trust him, and even recommended that my wife become a client and she did and is just as thrilled. Plus, he is big on innovation, and his office now has the latest in technology. It is truly amazing the changes he has made since he took over what was already a fantastic dental office.

I have been in a dentist chair since I was 10 years old (got my first crown back then). There are good dentists - then there are exceptional dentists. Dr Adams is exceptional. The staff is great. You are always treated well, and they are always on time. They have state of the art equipment - which means now if I need a crown - its one appointment. Going back to any other type of service is unthinkable. I cant say enough about how much I appreciate Dr Adams and his staff.

Friendly staff, clean environment, and adequate parking. They also seem to be using the newest techniques and equipment; at least I assume they are new - they are new to me. My favorite aspect of this office is that all procedural rooms look out windows; while the views are stunning, it's nice to have something to look at other than a wall.

Dr. Adams is a fine dentist, technically competent, and pleasant to interact with. Filling replacement took about 30 minutes from sitting down to walking out. Very pleased with the procedure. Beyond that, Dr. Adams is a true healthcare professional. Doesn't try to sell you what you don't need, simply does excellent dentistry. The whole practice is full of professionals. From the receptionist/office manager through the hygienists, to Dr. Adams himself. Highly recommended.

Most people don't look forward to going to the dentist but I seem to enjoy it every time I do. Thanks to Todd, Debbie and Terri, they have made my experience there very comfortable and informative. I always learn something new and I thought I knew how to take great care of my teeth. They have a friendly atmosphere and a very clean and

nice office. Dr. Adams really knows his stuff and Terri is mine and my husband's favorite hygienist. My husband had a meeting come up the day before his appointment that he couldn't miss and Debbie was able to change it for him so quickly and efficiently. This is one great place if you need a superb dentist.

As always, everyone was very nice. However, I ended up with a pretty negative experience. Basically, there was a great deal of criticism of my hygiene, but without practical suggestions on how to improve things. Apparently flossing daily really isn't doing it for me. So what else? I can't help thinking that I was doing much better on the plastic toothpicks.

Kind, compassionate and well done, great service in all. I had to get several fillings and or a few redone and I was treated kindly and gently, especially as I usually require at least 3 shots of Novocaine at each site. So even though I was not happy to have the procedure done, I really couldn't ask for, nor have I received with previous DDSs, better service and kindness.. and yes I actually love my new fillings.

overall a pleasant experience, the office manager is always friendly and welcomes you when you come in. Most people do not enjoy going to the dentist, I am no exception. Knowing your dentist is skilled, knowledgeable and puts "your comfort" first helps to make your visits less stressful - thank you Dr. Adams!

AMAZING!!!!!!!!!!!!!! I was anxious about going to a dentist in the first place and wasn't finding a lot of kindly reviewed Dentists. There was a one anomaly: Dr. Adams. and it proved a smart gamble. He and his staff are kind courteous, up to date with medical technology and well just plane AMAZING!!! Upon returning to work I recommended him to 5 coworkers. 'Nuff said.

Short version: Dr. Adams is a fantastic dentist. Longer version: I have been going to Dr. Adams for at least 5 years, and the experience is always great. During that time the office has been upgraded with state-of-the-art technology and tools that you can actually tell contribute to a better patient outcome. The small staff is friendly and seem to genuinely care about their patients. And while I do not have particularly challenging dental needs, every time anything out of the ordinary comes up, Dr Adams' work is performed at the highest level.

I live in San Francisco but make the drive to Sunnyvale twice a year to visit Dr. Adams' office. The office staff, hygenists, and Dr. Adams are all efficient, friendly, and skilled. This definitely makes it worth the drive. They are primarily concerned with oral health and prevention, an ideal combination in a dentist. While they do have cosmetic dentistry if you want it, they focus is on the patient's needs. I need a dentist who keeps my costs reasonable and my teeth healthy, and that is why I come here. One

of the recent advances at this practice (I've been a patient here for nearly two decades and started with Dr. Williams) is the inclusion of new technology in the office including text message reminders of your appointment. Frankly, I love it and wish my physician would incorporate technology like this. Can't recommend this dentist highly enough, the whole operation is great!

Both the dental hygienist and Dr. Adams are well trained on using tech in the office. It's a completely new experience than dentist visits of the past. The cleaning session is no longer a scrape, shine and lecture about the merits of dental floss. It now involves looking at live time views inside your mouth, closeups of the teeth, and an accurate understanding of what your dental professionals are talking about as they discuss problem areas. Wow! I'm really going to floss more now !

Dr. Adams is a godsend! I came in for a second opinion because my dentist told me that I needed a crown, but I wasn't quite convinced. After Dr. Adams thoroughly examined my teeth, he confirmed my suspicions and diagnosed the issue to be another tooth. Not only did Dr. Adams save me big \$\$\$, he saved a perfectly healthy tooth from being crowned unnecessarily! I was back the next day to have the filling my former dentist did, re-done by Dr. Adams. I was very nervous about the procedure because of the bad experience from my other dentist but I was astounded - completely painless!!! I have since transferred all my dental records along with my daughter's to Dr. Adams' office. I'm so happy to have found such a great practitioner who is so knowledgeable, thorough, and uses great technology!

However, after just a couple of routine appointments with Dr. Adam, any concerns I had quickly dissipated. Dr. Adams is clearly a skilled and seasoned dentist. He has incorporated some impressive technology into his practice, which improves outcomes. I experienced this when having a couple of crowns added. Pretty awesome to see the crowns custom milled right there in the office -immediately after the image was taken. Everything worked perfectly. Very happy with the result. Beyond technology, Dr. Adams has a great demeanor. He takes the time to inquire about general dental health, as well as thoroughly explain any procedures. He is adept at putting patients at ease. I've had good experiences with Dr. Williams' office, now Dr. Adams' office. They are thorough with cleanings, make good use of email to confirm appointments and give reminders, and are efficient so you rarely have to wait very long. Their efficiency does not mean they don't clean well or skimp on anything either.

Betty and I have been loyal clients of Dr. Williams for 35+ years and have recommended many of our friends to his practice. The reason is a trust relationship that balances best practices and recommend care vs. aggressive practices. A number of my friends report the change toward aggressive practices under Dr Adams. This is viewed in a negative manner by many, particularly as a revenue enhancing mechanism for the practice. The notion is that, we as layman, can only take recommendation of the professional, thus trapped. Hence the solid trust relationship needs to be re-established. Dale

Last week I had to get a filling. I had previously had a filling in the same tooth but it wore out after 10 years. Dr. Adams realized that my cavity was much deeper than expected. Instead of doing what would normally require a root canal, he drilled as deep as he could and filled it with a reinforcement. He told me my tooth would probably sore for a week or two. To my surprise, I haven't had any soreness since the filling was put in.

Dr. Adams is young, hip and professional. He used the latest equipment to find deep decay that was not detectible from the x-ray. This decay ran deep and the tooth was close to needing a root canal procedure. Due to his modern practice technique I was able to avoid the dreaded root canal! I also liked how he has all of the tools to make crowns in-house on one visit. The hygienist was equally impressive. Not only was she gentle and complete but she also taught me fun facts about biofilm. Nice.

I think Dr. Adams is a very good dentist and he runs a very professional practice. For a set of cavities that needed to be filled as well as a mouth guard that had to be fitted and created, his practice contacted my insurance for me to find out what the charges were ahead of time so I would have no surprises. One area where I think Dr. Adams can seek to improve is explaining what exactly he is doing to and for his patients. For example, one of the fillings I had done did not stick. I didn't really receive an explanation why it didn't stick and for that matter why it could not be fixed at that moment and if there were any consequences for leaving the cavity (which did receive some drilling) unfilled. Instead, I was told that it would be redone when I came back in for my mouth guard. So for about 2.5 weeks, I had an open crevice in a tooth- was this ok? I suppose it was, but I was never told this. I think patients would be more reassured if these things were explained better. But for his part, Dr. Adams did fix the filling when I came in recently and it feels/appears to be well done. Summary: Good- Very professional, does good work. To work on- Explaining things better and in more detail to his patients, even if he thinks it is trivial or obvious to him.

Dr. Adams and Deb went out of their way to make me comfortable. I then had such a good experience getting my first same day crown. It was so wonderful not to have to come and go many times in order to get a crown. And it was a real plus to see the whole process, impressive. And of course I love coming for my cleanings and catching up. Thank all of you very much.
